TITLE 01  
CHAPTER 03**

**07.01.03 - RULES OF ELECTRICAL LICENSING AND REGISTRATION - GENERAL**

**015. ELECTRICAL CONTRACTOR.**

**01. Qualifications for Electrical Contractor. (4-7-91)**

**a.** On and after July 1, 2008, except as hereinafter provided, any person, partnership, company, firm, association, or corporation shall be eligible to apply for an electrical contractor license upon the following requirements: (4-2-08)

i. Applicant shall have at least one (1) full-time employee who holds a valid master electrician license issued by the Electrical Bureau. Licensed electrical contractors who are current and active prior to July 1, 2008, shall not be required to have a master electrician as the supervising electrician until a new supervising electrician is designated. A master electrician license will be required for a new supervising electrician designated after July 1, 2008. (4-2-08)

ii. The master electrician shall be designated the supervising electrician and shall be available during working hours to carry out the duties of supervising, as set forth herein, and who will be responsible for supervision of electrical installations made by said company, firm, association, or corporation as provided by Section 54-1010, Idaho Code. (4-2-08)

iii. An individual electrical contractor may act as his own supervising master electrician upon the condition that he holds a valid master electrician license. (4-2-08)

iv. Applicant must pass a contractor examination administered by the Bureau or its designee. Any applicant which purports to be a non-individual (such as, corporation, partnership, company, firm, or association), must designate in writing an individual to represent the partnership, company, etc., for examination purposes. Any such designee shall be a full-time supervisory employee and may not represent any other applicant for an electrical contractor's license. (4-2-08)

v. Applicant shall provide proof of liability insurance to the Bureau in the amount of three hundred thousand dollars (\$300,000) from an insurance company licensed to do business in the state of Idaho. The liability insurance shall be in effect for the duration of the applicant's contractor licensing period. (4-2-08)

vi. Applicant shall provide to the Bureau proof of Idaho's worker's compensation insurance unless specifically exempt from Idaho law. Bureau will provide written confirmation of exemption status. (4-2-08)

**b.** Any person designated under Paragraph 015.01.a. of these rules, and the contractor he represents, shall each notify the Bureau in writing if the supervising master's working relationship with the contractor has been terminated. Each notice must be filed with the Bureau within ten (10) days of the date of termination. If the supervising master's relationship with the contractor is terminated, the contractor's license is void within ninety (90) days unless another supervising master is qualified by the Bureau. (4-2-08)

**02. Required Signatures on Application.** An application for an electrical contractor license shall be signed by the applicant or by the official representative of the partnership, company, firm, association, or corporation making the application. The application shall be countersigned by the supervising master electrician. (4-2-08)

**03. Electrical Contracting Work Defined.** An electrical contractor license issued by the Division of Building Safety must be obtained prior to acting or attempting to act as an electrical contractor in Idaho. (4-5-00)

**a.** Electrical contracting work includes electrical maintenance or repair work, in addition to new electrical installations, unless such work is expressly exempted by Section 54-1016, Idaho Code. (4-5-00)

**b.** Any person or entity ~~providing performing~~ or offering to ~~provide perform~~ electrical contracting services, including, but not limited to, advertising or submitting a bid shall be considered as acting or attempting to act as an electrical contractor and shall be required to be licensed. For the purposes of this section, advertising shall include, but not be limited to: newspaper, telephone directory, community flier ads or notices, telephone, television, radio, internet, business card, or door-to-door solicitations. (4-5-00)( )

**c.** Any person or entity, not otherwise exempt, who performs or offers to perform electrical contracting work, is acting as an electrical contractor, whether or not any compensation is received. (4-5-00)

**d.** Registered general contractors who submit a bid on a multi-trade construction project that includes a licensed electrical contractor's pricing shall not be considered to be acting or attempting to act as an electrical contractor. ( )

**04. Previous Revocation.** Any applicant for an electrical contractor license who has previously had his electrical contractor license revoked for cause, as provided by Section 54-1009, Idaho Code, shall be considered as unfit and unqualified to receive a new electrical contractor license so long as such cause for revocation is continuing and of such nature that correction can be made by the applicant. (1-14-87)

**05. Reviving an Expired License.** Any applicant for an electrical contractor license who has allowed his license to expire and seeks to revive it under the provisions of Section 54-1013, Idaho Code, may be denied a license as unfit and unqualified if, while operating under the license prior to expiration, he violates any of the laws or rules applicable to electrical contractors. (4-1-91)

**06. Qualification and Duties for Supervising Journeyman or Master.** (4-2-08)

**a.** A master electrician shall not be considered as qualified to countersign an electrical contractor license application as the supervising master, nor shall said application be approved if he does countersign said application as the supervising master, if said master has had his Idaho electrical contractor license revoked for cause under Section 54-1009, Idaho Code. (4-2-08)

**b.** A supervising master shall not countersign for more than one (1) contractor. (4-2-08)

**c.** A journeyman who is a full time employee of a company, corporation, firm or association with an industrial account may sign as supervising journeyman for that industrial account in addition to signing as supervising journeyman for his own contractor's license so long as the journeyman is listed as the owner and complies with the provisions of Paragraphs 015.01.a. and 015.01.b. of these rules (7-1-97)

**d.** Duties include: assuring that all electrical work substantially complies with the National Electrical Code and other electrical installation laws and rules of the state, and that proper electrical safety procedures are followed; assuring that all electrical labels, permits, and licenses required to perform electrical work are used; assuring compliance with correction notices issued by the Bureau. (4-2-08)

**07. Failure to Correct Defects in Electrical Installations.** If a master countersigns an electrical contractor license application pursuant to Subsection 015.03 of these rules and thereafter willfully fails to correct defects in electrical installations he made or supervised, and such defects are within his power to correct and are not the fault of the contractor, then the Electrical Bureau shall have the power to suspend or revoke said master's license pursuant to Section 54-1009, Idaho Code. (4-2-08)

**08. Overcharging of Fees.** It shall be grounds for suspension or revocation of an electrical contractor license if he charges and collects from the property owner an electrical permit or inspection fee which is higher than

the fee actually in effect at the time of such charging and collection, pursuant to the current Electrical Laws and Rules of the Division of Building Safety, Electrical Bureau, and the fee remitted by the contractor to the Bureau is less than the fee actually charged and collected by him. (4-6-83)

**09. Termination of Supervising Master or Contractor Designee. (4-2-08)**

**a.** Any person designated under Paragraph 015.09.a. of these rules, and the contractor he represents, shall each notify the Bureau in writing if the supervising master's working relationship with the contractor has been terminated. Each notice must be filed with the Bureau within ten (10) days of the date of termination. If the supervising master's relationship with the contractor is terminated, the contractor's license is void within ninety (90) days unless another supervising journeyman is qualified by the Bureau. (4-2-08)

**b.** Any person designated under Paragraph 015.09.a. of these rules, and the contractor he represents, shall each notify the Bureau in writing if the designee's working relationship with the contractor has been terminated. Each notice must be filed with the Bureau within ten (10) days of the date of termination. If the designee's relationship with the contractor is terminated, the contractor's license is void within ninety (90) days unless another duly qualified designee passes the electrical contractor's examination on behalf of the contractor.

54-1007. ISSUANCE OF LICENSES -- RECIPROCITY. (1) The administrator shall issue licenses to such persons as have by examination shown themselves to be fit, competent and qualified to engage in the trade of journeyman electrician, specialty electrician or master electrician as defined in section 54-1003A, Idaho Code, and to such persons, firms, partnerships, associations or corporations as have shown themselves to be fit, competent and qualified to engage in the business of electrical contracting or specialty electrical contracting as defined in section 54-1003A, Idaho Code.

(2) An apprentice electrician, as defined in section 54-1003A, Idaho Code, may take the journeyman's examination if he has completed the required related instruction for electrical apprentices as approved by the Idaho state board for professional-technical education and has worked the number of hours as prescribed by the Idaho electrical board, provided that for each such year he is claiming to have worked as an apprentice electrician, the apprentice shall have been registered with the division of building safety as an apprentice, paid an apprentice registration fee, and submitted with his annual application for apprentice registration verification of employment, the number of instructional hours completed and the number of hours worked **during the period that the hours of experience were obtained.** The electrical board may, by rule, fix the apprentice registration fee, in an amount not to exceed the costs of issuing apprentice registration certificates and enforcing the apprentice registration provisions of this ~~act~~ **chapter**, and may also by rule establish requirements relative to the manner of verification of employment, the number of instructional hours completed, continuation training and the number of hours worked.

(a) An apprentice who has completed the number of instructional hours and has not taken or passed the journeyman's examination within two (2) years of completion of the instructional training hours, shall provide proof of continuation training as set by rule of the electrical board.

(b) An apprentice who has not advanced in apprenticeship training for a period of two (2) years shall complete continuation training as set by rule of the electrical board.

**(c) All verification of employment forms submitted by an apprentice shall be entered into and maintained in the apprentice's file by the Division of Building Safety. The apprentice shall have on-line access to this information.**

(3) Any person who has worked as a licensed journeyman for a period of not less than four (4) years and who has worked the number of hours as prescribed by rule of the board as a licensed journeyman electrician shall be considered as qualified to apply for a master electrician's license in this state. The Idaho electrical board, in establishing by rule the requirements for a master electrician's license, shall also take into account the applicant's performance as a journeyman electrician.

(4) Any person with out-of-state experience who has worked as a journeyman electrician or as an apprentice electrician for a period of four (4) years, and who has met such other requirements as established by rule of the board, shall be considered as qualified to apply for a journeyman electrician's license in this state.

(5) To the extent that other states which provide for the licensing of electricians provide for similar action, the administrator, on the recommendation of the Idaho electrical board, may grant licenses to electricians licensed by such other states, upon payment by the applicant of the required fee and upon furnishing proof to the board that the applicant has qualifications at least equal to those provided herein for applicants for written examinations. Applicants who qualify for a license under this subsection are not required to take a written examination.

54-1008. DURATION OF LICENSE. (1) All licenses, including license renewals, for master electricians, journeyman electricians and specialty journeyman electricians shall issue for a period of three (3) years, and shall expire three (3) years from the date of issue unless renewed, revoked or suspended.

(2) Electrical contractor, **and** specialty electrical contractor and apprentice/specialty trainee licenses issued after July 1, 2002, shall issue for a period of one (1) year, and shall expire one (1) year from the date of issue unless renewed, revoked or suspended.

**(3) Electrical apprentice registrations issued or renewed after July 1, 2008, shall be issued for a period of five (5) years.**

**(4) Electrical specialty trainee registrations issued or renewed after July 1, 2008, shall be issued for a period of three (3) years.**

**(35)** Each licensing period shall end at midnight on the last day **of the month** of the licensing period. **Licenses not renewed by this date shall have expired.**

**(46)** The board shall promulgate rules to provide for a staggered system of issuing and renewing licenses.

54-1013. RENEWAL OF LICENSES -- INACTIVE LICENSES. (1) A license once issued under this chapter, unless revoked or suspended as herein provided, may be renewed at any time during the final month of the licensing period on the payment of the renewal fee herein specified, proof of satisfaction of the continuing education requirements as established by the electrical board, and provided that all outstanding civil penalties, and permit or other fees, have been paid in full, and all outstanding correction notices have been satisfactorily resolved. For electrical contractors and specialty electrical contractors, proof of liability insurance in the amount of three hundred thousand dollars (\$300,000) shall also be required, and proof of worker's compensation insurance shall be required if applicable.

(2) Any license which has expired may be revived at any time within one (1) year from the ~~first~~ **last** day of the final month of the licensing period, by payment of the revival fee herein specified, together with all outstanding civil penalties, and permit or other fees and penalties, and upon proof that outstanding correction notices have been satisfactorily resolved. For electrical contractors and specialty electrical contractors, proof of

liability insurance in the amount of three hundred thousand dollars (\$300,000) shall also be required, and proof of worker's compensation insurance shall be required if applicable.

(3) Certificates of competency issued prior to July 1, 1961, shall, for the purpose of this chapter, be considered as licenses and may be renewed or revived as herein provided.

(4) The administrator may renew, on an inactive basis, the license of an electrical contractor or specialty contractor who is not engaged in electrical contracting in this state. The board shall fix and collect an inactive license fee for such an inactive license renewal in an amount not to exceed one hundred fifty dollars (\$150). Each inactive license shall be issued for a period of one (1) year. An electrical contractor or specialty contractor holding an inactive license may not engage in the practice of electrical contracting or specialty contracting in this state. If an electrical contractor or specialty contractor wishes to convert his inactive license to an active license, he may do so by paying a processing fee of thirty dollars (\$30.00) and providing proof of the required liability insurance and applicable worker's compensation insurance.

**b.** All others shall be calculated using Subsection 011.06, Other Installations Including Industrial and Commercial, of these rules. (3-18-99)

**02. New Residential -- Single Family Dwelling.** (Includes all buildings with wiring being constructed on each property.)

New Residential - Single-Family Dwelling		
Up to 1,500 Square feet of living space	-	\$130
1,501 to 2,500 Square feet of living space	-	\$195
2,501 to 3,500 Square feet of living space	-	\$260

3,501 to 4,500 Square feet of living space	-	\$325
Over 4,500 Square feet of living space	-	\$325 plus \$65 for each additional 1000 sq. ft. or portion thereof
<b>New Residential - Multi-Family Dwellings</b>		
Duplex Apartment	-	\$260
Three (3) or more multi-family units	-	\$130 per Building plus \$65 per Unit

(3-26-08)

**a.** Existing residential: sixty-five dollars (\$65) plus ten dollars (\$10) for each additional branch circuit up to the maximum of the corresponding square footage of the residential building. (3-26-08)

**b.** Residential spas, hot tubs, hydro massage tubs, swimming pools: sixty-five dollars (\$65) for each trip to inspect. (Other than residential, use Subsection 011.06, Other Installations Including Industrial and Commercial, of these rules.) (3-26-08)

**03. Residential Electric Space Heating and Air Conditioning.** When not part of a new residential construction permit, or heat/ventilating/air conditioning permit with no additional wiring: sixty-five dollars (\$65). (3-26-08)

**04. Domestic Water Pumps.** See Subsection 011.07 - Pumps (Water, Domestic Water, Irrigation, Sewage) -- Each Motor, of these rules. (3-18-99)

**05. Mobile/Manufactured Homes.** Sixty-five dollars (\$65) basic fee plus ten dollars (\$10) for each additional circuit. (3-26-08)

**a.** Mobile home and RV parks for distribution wiring including pedestal, service conductors and lot supply to individual units come under Subsection 011.06, Other Installations Including Industrial and Commercial, of these rules. (3-18-99)

**06. Other Installations Including Industrial and Commercial.** The inspection fees listed in this section shall apply to any and all electrical installations not specifically mentioned elsewhere in this schedule. The electrical cost shall be the cost to the owner of all labor charges and all other costs that are incurred in order to complete the installation of any and all electrical wiring and equipment installed as part of the electrical system, factory assembled industrial machinery to be operated by electrical energy shall not be included in calculating these fees. (3-26-08)

**a.** Wiring cost not exceeding ten thousand dollars (\$10,000): sixty dollars (\$60) plus two percent (2%) of total wiring cost. (3-26-08)

**b.** Wiring cost over ten thousand dollars (\$10,000) but not exceeding one hundred thousand dollars (\$100,000): two hundred sixty dollars (\$260) plus one percent (1%) of wiring cost in excess of ten thousand dollars (\$10,000). (3-26-08)

**10. Requested Inspections.** A base fee of sixty-five dollars (\$65) plus an additional sixty-five dollars (\$65) for each hour, or portion thereof, in excess of one (1) hour including travel time. Out-of-state travel expenses shall be paid by the requesting party. (3-26-08)

**11. Additional Fees and Reinspection Fees.** A base fee of sixty-five dollars (\$65) plus an additional sixty-five dollars (\$65) for each additional hour, or portion thereof, in excess of one (1) hour including travel time, shall also be paid before approval of the installation if the following services are necessary: (3-26-08)

**a.** Trips to inspect when the submitter of the permit had given notice to the inspector that the work is ready for inspection when it was not, or if the submitter has not clearly given the location of the installation either by directions or maps, or if the inspector cannot gain access to make the inspection. (1-14-87)

**b.** Trips to inspect corrections required by the inspector as a result of the submitter improperly responding to a corrective notice. (1-14-87)

**c.** Each trip necessary to remove a red tag from the jobsite. (1-14-87)

**d.** When corrections have not been made in the prescribed time, unless an extension has been requested and granted. (1-14-87)

e. No permit -- failure to post or send permit and required fee in the prescribed time will, at the discretion of the Division of Building Safety, result in the assessment of a double fee. (3-18-99)

**12. Plan Check Fee.** Sixty-five dollars (\$65) minimum for one (1) hour or less. Over one (1) hour: sixty-five dollars (\$65) plus sixty-five dollars (\$65) for each hour, or portion thereof, in excess of one (1) hour. (3-26-08)

**13. Fees for Temporary Amusement/Industry Electrical Inspections.** Each time a ride, concession, or generator is set up: sixty-five dollars (\$65) base fee plus ten dollars (\$10) for each ride, concession, or generator. (3-26-08)

**14. Expiration of Permits.** Every permit issued by the Electrical Bureau shall expire by limitation and become null and void if the work authorized by such permit is not commenced within ninety (90) days from the date of issuance of such permit or if the work authorized by such permit is suspended or abandoned at any time after work is commenced for a period of one hundred eighty (180) days. A permit may be renewed for an additional year upon receipt of Bureau approval and sixty-five dollars (\$65) renewal fee. (3-26-08)

**012. -- 999. (RESERVED).**

Based on this appeal the Bureau Chief determined that we need to see electrical work being done.

**BLAZE SIGN AND GRAPHIC DESIGN** – Tony Golsarry, President was contacted by telephone to hear their appeal. On the civil penalties for the work done at the Chevron Station in Soda Springs, Blaze Sign was asked to put up Spanners at the Chevron Station. Installation of Level 2 Spanner - job was not what Blaze Sign expected it to be, when the crew went down to install Spanners they were old, not new Spanners. The construction crew was putting up the skin, the raceways, the plastic bracketing, the metal cutting everything getting it ready – basically built on the job for an electrical sign. Blaze Sign was constructing an electrical sign on site, but Tony Golsarry repeated that Blaze Sign did not know situation or type of work that this job was going to involve. On the last two violations Tony Golsarry explained that Blaze Sign had bid on a job that had to be approved by the job's corporate office and the company didn't get back to them until six months later wanting the work done that week. At that time Blaze Sign was booked for the next couple of months and was unable to do the work. Blaze Sign then called around and found another company that could do the work (Sign Works in Idaho Falls) and passed the job to them. When Sign Works completed the job they were given a corporate check that was made out to Blaze Sign, which Tony Golsarry signed and turned over to Sign Works. Chairman Keys thanked Mr. Golsarry for bringing his concerns to the board and the board would take his information under advisement and would get back to him as soon as possible, with the Board's decision.

## **Report from Professional Technical Education**

At the last Electrical board meeting there was a discussion about allowing apprentices to test after they had completed their schooling even though they did not have all of the 8000 hours or experience completed. I was asked to gather data from the schools regarding how many students completed schooling and had some time to wait to get enough hours to take the journeyman test. Upon asking the schools I found that that is information that has not been regularly tracked by the schools. If the board wants that information I would suggest that all schools be asked to begin to gather that information. Then at some future time data would be available when this discussion is held again.

I will not be attending this electrical board meeting and have not designated anyone to attend in my place since I am not aware of any major issues concerning the training portion of the apprentices. I will be looking for minutes to make me aware of those items discussed.

The reason for my absence is a recent appointment by the State Board of Education to be the Interim President of Eastern Idaho Technical College in Idaho Falls. This is a temporary assignment until a permanent replacement can be hired. The expectation is that this will be a few months and the plan is for me to return to my responsibilities at the Division of Professional-Technical Education.

Respectfully submitted,

Burton Waite  
Short-Term Training Program manager  
Idaho Division of Professional-Technical Education
